CONTENTS

Introduction vii

Geochemistry of fluids associated with the 1995–1996 eruption of Mt. Ruapehu, New Zealand: signatures and processes in the magmatic-hydrothermal system
B.W. Christenson. 1

Geochemistry of the magmatic–hydrothermal system of Kawah Ijen volcano, East Java, Indonesia
P. Delmelle, A. Bernard, M. Kusakabe, T.P. Fischer and B. Takano 31

Downstream composition changes of acidic volcanic waters discharged into the Banyupahit stream, Ijen caldera, Indonesia
P. Delmelle and A. Bernard 55

Geochemistry of the acid Kawah Putih lake, Patuha Volcano, West Java, Indonesia
T. Sriwana, M.J. van Bergen, J.C. Varekamp, S. Sumarti, B. Takano, B.J.H. van Os and M.J. Leng. 77

Chemical characteristics of the crater lakes of Popocatetetl, El Chichon, and Nevado de Toluca volcanoes, Mexico
M.A. Armienta, S. De la Cruz-Reyna and J.L. Macías 105

Chemical evolution and volcanic activity of the active crater lake of Poás volcano, Costa Rica, 1993–1997
M. Martínez, E. Fernández, J. Valdés, V. Barboza, R. Van der Laat, E. Duarte, E. Malavassi, L. Sandoval, J. Barquero and T. Marino. 127

Leakage of Active Crater lake brine through the north flank at Rincón de la Vieja volcano, northwest Costa Rica, and implications for crater collapse
K.A. Kempter and G.L. Rowe 143

Volcanic lake systematics II. Chemical constraints
J.C. Varekamp, G.B. Pasternack and G.L. Rowe Jr. 161

The 1996 subaqueous eruption at Academii Nauk volcano (Kamchatka) and its effects on Karymsky lake
S.M. Fazlullin, S.V. Ushakov, R.A. Shuvalov, M. Aoki, A.G. Nikolaeva and E.G. Lupikina 181

The hazards of eruptions through lakes and seawater
L.G. Mastin and J.B. Witter. 195

Energetics of gas-driven limnic and volcanic eruptions
Y. Zhang 215

Rollover in volcanic crater lakes: a possible cause for Lake Nyos type disasters
A. Rice 233

Recent pH and CO_2 profiles at Lakes Nyos and Monoun, Cameroon: implications for the degassing strategy and its numerical simulation
M. Kusakabe, G.Z. Tanyileke, S.A. McCord and S.G. Schladow 241

Constraints on the age of Lake Nyos, Cameroon
S.J. Freeth and D.C. Rex 261
Water chemistry of Lake Quilotoa (Ecuador) and assessment of natural hazards
E. Aguilera, G. Chiodini, R. Cioni, M. Guidi, L. Marini and B. Raco 271
Sulfur isotopic effects in the disproportionation reaction of sulfur dioxide in hydrothermal fluids: implications for the $\delta^{34}S$ variations of dissolved bisulfate and elemental sulfur from active crater lakes
M. Kusakabe, Y. Komoda, B. Takano and T. Abiko 287
The stable isotope geochemistry of volcanic lakes, with examples from Indonesia
J.C. Varekamp and R. Kreulen 309
D/H and $^{18}O/^{16}O$ ratios of water in the crater lake at Kusatsu-Shirane volcano, Japan
T. Ohba, J. Hirabayashi and K. Nogami 329
Tritium and stable isotopes of magmatic waters
F. Goff and G.M. McMurtry 347
A telemetering system for monitoring aqueous polythionates in an active crater lake
B. Takano, Q. Zheng and S. Ohsawa 397
Sulfur geochemistry of hydrothermal waters in Yellowstone National Park, Wyoming, USA. II. Formation and decomposition of thiosulfate and polythionate in Cinder Pool
Y. Xu, M.A.A. Schoonen, D.K. Nordstrom, K.M. Cunningham and J.W. Ball 407
Geophysical studies of the recent 15-year eruptive cycle at Poás Volcano, Costa Rica
H. Rymer, J. Cassidy, C.A. Locke, M.V. Barboza, J. Barquero, J. Brenes and R. Van der Laat 425
Hydroacoustic noise precursors of the 1990 eruption of Kelut Volcano, Indonesia
J. Vandemeulebrouck, J.-C. Sabroux, M. Halbwachs, Surono, N. Poussielgue, J. Grangeon and J. Tabbagh 443
Fumaroles in ice caves on the summit of Mount Rainier—preliminary stable isotope, gas, and geochemical studies
D.R. Zimbelman, R.O. Rye and G.P. Landis 457
Acid alteration in the fumarolic environment of Usu volcano, Hokkaido, Japan
F. Africano and A. Bernard 475
Analytical laboratory comparison of major and minor constituents in an active crater lake
B. Takano, S.M. Fazlullin and P. Delmelle 497
